Docs4 PATIENT CARE

To My Patients,

Doctors don't like to talk politics. I don't treat Republicans or Democrats, I treat patients.

But politicians have crossed the line. The door to our exam room.

As your doctor, I must speak out.

Health Care Reform threatens my patients by ignoring real problems and creating new ones:

Problems Ignored

-  Drug Shortages
-  Doctor Shortages
-  Bureaucrats practicing medicine *without a license!*

Problems Created

-  Health Insurance Skyrockets
-  Bureaucrats dictating medicine
-  A Perfect Storm

Doctors all across America have the new Prescription for American Health Care. It begins with repealing the "Patient Protection and Affordable Care Act".

Vote only for candidates that will

Repeal the Reform

MD _____

Signature _____

Please. Vote Nov 6 for candidates vowing to *fully repeal* "The Patient Protection and Affordable Care Act".
